Charge Card Systems Named Preferred Credit Card Processor to the New York County Medical Society

The New York Medical Society is pleased to announce that Charge Card Systems (CCS) has been selected as its preferred provider for credit card processing.

CCS is a leading provider of payment solutions, including credit card processing, check services and gift and loyalty programs. Through CCS Medical, Charge Card Systems specializes in the healthcare arena and is proud to be working with such well know organizations as Mt. Sinai Hospital, Mt. Sinai School of Medicine, the St. Barnabas Hospital center and thousands of other medical practices throughout the country.

During the Medical Society's evaluation and due diligence in selecting a partner in this category it became abundantly clear that CCS provided the Medical Society with the greatest value, including integrity and ethics. Our conversations, among other things, resulted in us learning about the many hidden fees involved in credit card processing and how these hidden fees are a direct drain on the bottom line.

To highlight their point, CCS analyzed our statement and identified the many surcharges or hidden fees that existed and provided a detailed explanation as to the cause and reason for their existence and how we can avoid certain charges moving forward. Needless to say the exercise proved to be interesting, enlightening and very profitable to the Medical Society. We strongly urge every member of the Medical Association to contact Charge Card Systems to have an analysis of their current program versus the CCS solution.

As part of its relationship with the NY Medical Society, CCS has offered the following to its members.

- A free rate analysis
- A program proposal that will assist in lowering the overall fee structure of our members
- Guaranteed 12 hour funding

To learn more about how your practice can benefit from Charge Card Systems services please contact **Mark Bristow** at 845-368-1545 or email him at mbristow@chargecardsystems.com.
